DOCKET NO. 2005-306-G - ORDER NO. 2006-21  
JANUARY 19, 2006

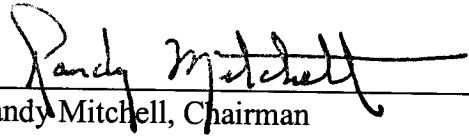

IN RE: Request for Approval of Agreement for the	)	ORDER APPROVING
Provision of Experimental Resale Firm	)	AMENDMENTS TO
Transportation Peaking Service Between South	)	CONTRACTS
Carolina Electric and Gas Company and South	)	
Carolina Pipeline Corporation	)	

This matter comes before the Public Service Commission of South Carolina (the Commission) on the request of South Carolina Pipeline Corporation (SCPC) for approval of amendments to several experimental resale firm transportation contracts and experimental resale firm transportation peaking contracts with various sale-for-resale customers. The effect of these amendments is to reduce the fuel retainage percentage related to this experimental service to one percent (1%) from two percent (2%). Each of the agreements referred to has been previously filed with the Commission pursuant to 26 S.C. Code Ann. Regs.103-446 (1976), and has been previously approved by the Commission. The contracts are listed specifically in SCPC's filing.

We have examined the proposed amendments to the contracts and we approve them. Reduction of the fuel retainage percentage related to the experimental service to one percent (1%) from two percent (2%) is a reasonable amendment.

This Order shall remain in full force and effect until further Order of the Commission.
